anxiety over the lack of details from
two reported British disasters in South
Africa the past week.

YOUNG MAN ASSASSINATED.

Farmer, aged 20, a prominent young
man, was assassinated near here and
his body was placed on a railroad
track and horribly mutilated.

dred soldiers who were maddened by
drinking two comrades lying outside of
Mrs. Powers' saloon from the effects
of being drugged, wrecked the saloon

BOOTLEGGER ARRESTED.

Saunders returned from Mayfield to-
day at noon with Dick Rowland, col-
ored, charged with "bootlegging."
The examining trial will be held this
afternoon.

TOOK POISON.

ROL GLASS IS NOW OUT OF
DANGER AT THE HOSPITAL.

Rol Glass, a well known man of the
city, took morphine at a Third street
saloon last night about 8 o'clock and
then told the bartender what he had
done. He attempted to write a note
and explain why he wanted to die,
but couldn't do it. He was taken to
the market house and on a bench
Dr. Robertson "operated" with an
emetic, and Glass was taken to the
city hospital, where he is now out of
danger.

POLICE COURT.

JAMES CALLED AND DISPOSED
OF THIS MORNING.

Several boys and young men were
fined \$20 and costs for engaging in a
small game of chance.
William Terry, a boy arrested for
jumping on and off trains near the
coal tipples, was fined \$5 and costs and
judgment suspended during good be-
havior.
Jas Scott, colored, for gaming, was
fined \$20 and costs.
The case against Charles Andrews,
charged with setting up and running
a game, was again continued.
Dennis Loving, (Bill Brown and
Frank Owen were charged with viola-
tion of ordinance by discharging the
noises that harkens and expressmen
are not permitted on the wharfbout.
The case was left open to see if there
is any such an ordinance on the books.
The case against James Dismberry,
white, charged with obtaining money
by false pretenses, by selling a filter
stolen from Mr. Hiram Smalley, was
left open.
A case against Rodney Doyla, for
the alleged taking of a \$20 bill from
Deputy Circuit Clerk John Hobson's
hat, was on motion of the county at-
torney dismissed.

TO DRAIN OAK GROVE.

The contract for the draining of
Oak Grove cemetery into Perkins
creek has been let to Mr. W.K. Wheel-
er and the work will begin Monday.
Mr. Wheeler will employ about fifteen
men and boys to have the work com-
pleted by next Saturday.

ILLUSTRATED LECTURE.

MR. J. M. McNEALEY WILL AD-
DRESS THE Y. M. C. A.
BOYS.

Mr. J. M. McNealey will deliver
an illustrated lecture to the boys at
the Y. M. C. A. tomorrow after-
noon. The illustrated charts to be
used in the lecture were drawn by
Mrs. Macott, wife of the popular
secretary of the Y. M. C. A. and
are very creditable pieces of work.
The lecture will no doubt be well at-
tended.

WOMEN FIGHT.

LITTLE ADDITION THE SCENE
OF A LIVELY, BUT BLOOD-
LESS CONFLICT.

There was a lively scrap in the Lit-
tle addition yesterday afternoon be-
tween two white women, Miss Rosa
Morris and Mrs. Vina Wells. The
fight started over a plank and the war
raged for about fifteen minutes. The
participants scratched, bit, pulled
hair and made enough noise to put a
boiler shop in the shade. The police
were informed of the difficulty and
warrants were issued this morning for
their arrest.
The two belligerents were brought
into police court, neither looking
much the worse for the encounter, and
on account of absent witnesses the
case was continued until Monday.

CARPENTERS QUIT

THEIR BOSS DID NOT THINK
THEY WERE EARNING
THE SCALE.

There was a small strike of union
carpenters at the new building on
Broadway, between Fifth and Sixth
streets, this morning. They are em-
ployed by Contractor C. A. Coleman,
who was paying \$7.75 cents per hour,
and made a reduction in several cases
to 25 cents per hour, which is a cut in
the union scale.
Mr. Coleman said to a reporter that
he had simply told three of his em-
ployees that he would have to make a
cut in their wages as they were not
worth the amount of pay. "I told
them that I was willing to pay a man
the full union rate if he was worth
that much to me," Mr. Coleman said,
"but when he was not earning that
amount then I would have to make a
cut. I am heartily in favor of the
unions and am more than willing to
pay the men all the scale scale, but
when a man does not earn that much
then he will either have to accept a
cut or quit. The three I made the cut
on quit and that is all there is to the
matter."

Sam Gott's free lunch tonight will
please you.

NO DEED.

A HITCH IN THE GRAND RIV-
ERS DRAL-CAPITALISTS
RETURN HOME.

Messrs. Harrison, Scott and Sim-
mons, the St. Louis capitalists, who
have been in Grand Rivers inspecting
the property, returned to Paducah this
morning and said they were well
pleased with everything but that they
had not succeeded in getting a clear
title to the property. This is all the
information they gave out relative
to their mission. They left
on the noon train for St. Louis.

THE WEATHER.

Fair tonight and Sunday except
occasional rain in northern portion.

MR. COFFEE RETURNS.

Mr. Thomas Coffee, of Peoria, Ill.,
owner of the Paducah Gas Plant, re-
turned this morning from a trip to
Peoria, and is at the Pamer. The gas
plant is being rapidly improved.

Mayor Lang Gives His Ideas About
Street Num-
bers.

AVENUE NO. 1 INADVISABLE

He Takes Issue With a Writer to the Local
Press About the Property Valu-
ation Suggested.

NO COUNCILMANIC MONUMENT LIKELY

Mayor Lang was in a loquacious
mood this morning. Saturday is his
busy day, but he usually spends the
forenoon preparing to keep busy in
the afternoon.

"Nothing new today, I believe," he
said as he scratched his head and
looked thoughtful.

"There is nothing new today, I believe," he
said as he scratched his head and
looked thoughtful.

For selling last meat the fine en-
gaged is from \$20 to \$50 for each
offense, the exact amount left to the
discretion of the court. For unhealthy
fish, poultry, fowl or game, the
vendor thereof shall be fined from \$10
to \$20.

The sense of those last night was
that dairies should be inspected once
every two weeks, while inspections of
stock should be daily, from the hours
of 8 till 9 in the morning, and 3 to 4
in the afternoon. Meat upon the
markets inspected every morning.
Cattle when found unsound are to be
branded "condemned" in some man-
ner yet undecided, and "approved" if
found in good condition. Brans-
tags will be hung in the animal's
ears, or hot iron brands stamped
upon the body.

The only friction likely to occur is
in regard to the inspector. The
council seems to object to a veteri-
nary being stipulated, as there is only
one here who is eligible. Mayor
Lang certainly objects and will veto
the ordinance if it makes no one ex-
cept a veterinary eligible.

If the board of health is allowed
to dictate this restriction to the coun-
cil, it will practically dictate the elec-
tion. The council will also decline to
specify that the certifying physicians
to the ability of the applicants must
be members of the board of health.
Any practicing physician may sign the
certificate.

The marriage of Miss Bell Green, of

bondale, a conductor on the Illinois
Central running to St. Louis from Car-

NO VETERINARIAN

COUNCIL WILL PROBABLY HAVE
A PRACTICING PHYSICIAN.

Mayor Lang Objects to the Eligibility Being
Restricted—The Meat and Milk
Ordinance Ready.

A committee of the board of health,
Drs. Robertson, Graves and Stewart,
and Councilman G. R. Davis, for the
council committee, met last night to
look over the meat and milk inspec-
tor ordinance drafted by Mayor Lang.
They made several changes, but the
greatest is that the ordinance as mod-
ified requires the inspector to be a vet-
erinary surgeon, the one drafted by
Mayor Lang specifying a practicing
physician, or some one whose compe-
tency was certified to by a practicing
physician.

The salary, as forecast yesterday, is
fixed at \$600 per year. The penalties
will be sufficient to exact a faithful
observance of the ordinance which
provides that when the inspector de-
fects a dairyman disposing of un-
healthy milk he shall impose the fac-
tual fine into the gutter for the first
offense, warrants issued and the first
offense fined \$20 for the second offense,
while for the third the guilty shall
have to suffer revocation of his li-
cense.

For selling last meat the fine en-
gaged is from \$20 to \$50 for each
offense, the exact amount left to the
discretion of the court. For unhealthy
fish, poultry, fowl or game, the
vendor thereof shall be fined from \$10
to \$20.

Total For the
Week.

OTHER NEWS OF THE WEEK

Business at the banks the past
week has been fairly active, with a
holiday, Decoration day, the clear-
ings footed up \$479,939.91. June is
the last month in the first half of the
fiscal year of local institutions, they
making their distribution of divi-
dends on the 30th. The period has
been a most prosperous one and ear-
nings will show the best of recent
years.

The retail houses have complained
of a little dullness the past week and
attribute it to the weather conditions.
Trade, as a whole, is up to normal.
The Wholesale men are having a
good business with fair collections,
and present prospects splendid. The
factories are enjoying good runs at
this season and report good bookings
of orders.

There seems to be a general feeling
that Paducah's prospects for securing
the steel plant, representatives of
which were here the past week, are
very fine. If the city can land this
enterprise and the iron furnace is soon
put in blast, as it is hoped will be the
case before many moons, the people
will have ample cause for felicitation.

The tobacco market was some easier
the past week with heavy rejections.
Inspector Miller reports as follows:
Receipts week, 357 hogheads.
Receipts year, 4,131 hogheads.
Offerings week, 297 hogheads.
Rejections week, 109 hogheads.
Private sales week, 147 hogheads.
Sales week, 335 hogheads.
Sales year, 2,613.

tended to next Saturday.

ment in favor of the plaintiff was
filed.
In the case of Dora B. Portson

plaintiff was filed. She was given an
absolute divorce and also \$150 al-
imony.

BLACKSMITHS' UNION.

OFFICERS OF THE NEW ORGAN-
IZATION ELECTED LAST
NIGHT.

A blacksmiths' union was organized
last night at Roifina hall with a char-
ter membership of seven. Six of the
men are employed in the local Illinois
Central shops, and the president of the
union, Mr. J. W. Mayfield, is em-
ployed at the Shelton & Haysman ma-
chine shops. The following is the list
of officers elected: President, J. W.
Mayfield; vice president, Robert
Kyle; secretary-treasurer and organ-
izer, Ira Landrum; conductor Goy
Randall; gradian, B. B. Oleary. The
union will in time be one of the
strongest in the city as not black-
smiths alone are eligible, but wagon-
makers are also invited to become
members. The charter has been sent
for and all the other steps necessary
to the proper installation, have been
taken. This adds one more union to
the already fast increasing trade-
men's unions and from present indica-
tions every trade in the city will soon
be represented in the Central body.

STEAMBOAT DISTURBS THE

Last night the Victor left for the
Illinois Central bridge over Tennessee
river to re-arrange the pontoon bridge
maintained there to keep boats from
striking the piers.

In some way they were broken loose
yesterday and badly disarranged, and
the boat was sent up to put them in
proper shape. Capt. Dan Finney is in
command.

DOINGS IN RAILROAD CIRCLES

There is talk of moving the local I.
C. shops to Central City. This is
not at all surprising to the public as it
is about the same old chestnut. Every
year, and in some cases several times
in the course of a year, some one
starts a tale about the removal of the
shops from this city. The shops have
been here for quite a long time and if
the company had not liked the ar-
rangement it would in all probability
have moved them away long ago. The
talk about the removal is considered
generally the talk of some real estate
man who wants to raise the price on
real estate in Central City and clear
a little ready cash in that way. There
has been much talk in recent years of
the removal of the shops but it has
all proven hot air.

A DAILY THOUGHT.
Self-respect governs morality, re-

CUBAN STUPIDITY.

If there were any doubt in the
minds of thinking, unbiased people
of the inadequacy of the Cubans to
the demands of self-government, it
would be dispelled by their dilly-
dallying with the Platt amendment to
their constitution. The United States
has risked much and done a great deal
more for the so-called patriots, and
this, if nothing else, should be suffi-
ciently convincing that the motives of
the men at the head of affairs are laud-
able, and their intentions good to do
what is best for the embryo republic.
The ability to guide them in mould-
ing their government is determined
beyond dispute by years of experience.
If the Cubans really want indepen-
dence, what better could they find than
that guaranteed by this government?

Yet the Cubans continue to display
a degree of obstinacy that would in-
dicate a stupidity wholly at variance
with the exactions of an independent
and progressive nation. This govern-
ment is forced to now inform the con-
vention that its action on the Platt
amendment is unsatisfactory, and will
have to be reconsidered. In other
words, the Cubans must do it in a
manner pleasing to this government,
or our troops will remain, and the Cu-
bans be prevented from forming the
independent government they profess
to desire.

The steps of Cuba this government
is largely responsible for, Congress
has determined the government's pol-
icy towards Cuba, and right or wrong,
it will be carried out, and if the Cu-
bans were endowed with the intelli-
gence necessary to the development
and maintenance of an independent
government, they would have per-
ceived it long ago. But whether from
perversity or stupidity, they will have
to modify their constitution to suit
the United States, despite the opin-
ions of either the alleged statesmen of
Cuba, or the wind-jammers and anti-
administration press of the United
States.

It is said that the amendment adopted
by the convention which precludes
the possibility of approval or accept-
ance of this government is that which
refers to the possible intervention of
the United States in the affairs of
Cuba. That portion of section 3 of
the Platt amendment reads as fol-
lows:
"That the government of Cuba agree-
ments that the United States may ex-
ercise the right to intervene for the
preservation of Cuban independence,
the maintenance of a government ade-
quate for the protection of life, prop-
erty and individual liberty, and for
discharging the obligations with re-
spect to Cuba imposed by the treaty
of Paris on the United States, now to
be assumed and undertaken by the
government of Cuba."
Having freed the island and named
the conditions under which she can
secure her independence, the United
States stands as sponsor before the
world for the good conduct of the
island's affairs. This is the section,
of all others, which the members of
congress will insist upon most
strongly.

Owensboro's city engineer seems to
be a very plume man. He disappeared
several days ago, and could not be
found. For nearly a week he was
unseen, and when he finally came
back claimed was by the light to con-
duct a sanctification meeting in the
county, and repouged to the call.
Some time before that he concluded
the Lord had commanded him to
throw away his jewelry, and discard-
ed his watch and chain. It seems
from the evidence that the golly
functionary needs an investigating
committee, either mentally or moral-
ly.

The Sun has no intention of engag-
ing in a political controversy with
any paper that has no political stand-
ing in any party. The Sun's con-
temporaries are welcome to any opinion
they choose to have or express regard-
ing its politics. If the president of
the Sun holds "the best paying fed-
eral office in the First district," that
is sufficient vindication of the paper's
politics. The Sun commends the
choice of the soreheads who have long
used the Great I AM up the street as
an official organ. It is probably the
best they could do.

Alabama they have a business like,
what the hell's the difference way of
doing things. They don't believe in
beating the devil around the stump.
One worthy delegate to the constitu-
tional convention has introduced a
bill declaring without qualification or
reservation that no negro can vote
hereafter at any election. It doesn't
make any difference in Alabama
whether this is contrary to the federal
constitution or not. The constitu-
tional amendment isn't in it with the
lawmakers and constitution amenders
of that state.

It seems from expression heard
from members of the council, that
the meat and milk inspector will be a
physician, and not a veterinarian. It
is generally thought that a physician
can easily fill the position. As it will
be a pretty good job for old time
work, there will probably be a scram-
ble for the place. The ordinance,
however, makes it imperative that
the inspector promptly respond to all
calls and there is to be no shirking.

An Indiana jury has decided that it
is not contrary to law to open a jack
pot with a lead dollar. This will be
good news to every one except the man
who makes a practice of winning jack
pots. The judge evidently had had
experience with jack pots, as he
gave the jury a rouser for such a deci-
sion. At any rate, the proper place
to put your lead dollars has now been
found.

Col. Richmond Hobson, the man
who killed the Merrimack and has killed
more girls than any other military or
naval hero on record—so far as is
known—is developing into an orator.
He delivered a memorial day ad-
dress at Detroit, and suggested a com-
mon decoration day, when both the
graves of the Blue and Gray will be
decorated.

The Democrats are great people to
look forward. The Bryan Democrats
are talking about the presidential
campaign in 1904, and the Kentucky
Democrats, satisfied that they will
not be able to get Ex-Gov. Taylor dar-
ling Gov. Durbin's term, are talking
about the good times coming in 1904
when Indiana elects a new governor.

The visiting newspaper men think
well of Memphis and the visiting
newspaper men know when things
are done right," remarks the Com-
mercial Appeal. But then all the
returns are not in.

A coroner's jury at St. Louis re-
turned a verdict of suicide in a case
where a man's head was found. They
are now probably looking around to
find out where the man's body walked
off to.

It is given out that President Mc-
Kinley does not deem it advisable to
call an extra session of congress to
take up the insular case decisions.

Speaking of "hot air" it seems that
there was a great deal of it wasted in
the last congressional campaign in
this district.

WHALEBACKS FOR TEXAS.

PITTSBURG COAL TO HAVE A
COMPETITOR IN BEAU-
MONT OIL.

Pittsburg, June 1.—Pittsburg coal
may have a competitor in Texas oil.
This was made evident today by the
fact that the J. M. Guffey Petroleum
company is negotiating at Cleveland
with one of the largest vessel owners
on the lakes for the purchase of two
whaleback boats by which oil may be
delivered at all lake points.

The J. M. Guffey Petroleum com-
pany now has two pipe lines from its
wells at Beaumont, Tex., to Port
Arthur, sixteen miles away, and up
Sabine Pass, where there is always
sufficient water for the largest steam-
ers. The pipe lines are a six-inch and
a two-inch and through them 20,000
barrels of oil can be delivered from
the wells to a steamer in twenty-four
hours. The wells now flowing are
producing over 100,000 barrels of oil a
day. It is possible to load the tank
steamers at Port Arthur with oil,
send them around the gulf, the At-
lantic ocean, the St. Lawrence river
and the Welland canal into the chain
of great lakes and deliver the oil in
less than thirty days. It is estimated
that for fuel purposes three and one-
half barrels of oil are equal to a ton of
the best Pittsburg coal. On this basis
the oil could come into competition
with Pittsburg coal at all lake points.

Rheumatism is conceded to have
its origin in a poisonous condition of
the blood, and to be most successfully
treated by HERBINE, which acts
upon the liver, kidneys and other
blood purifying organs, thereby dis-
solving the system of the offending
agents. Price 50 cents.

NATIONAL ELKS' HOME.
Columbus, O., June 1.—The com-
mittee appointed by the Grand Lodge
of Elks to select the location for the
proposed National home will meet in
Columbus on June 20, instead of New
York city. This will be the final
meeting of the committee before the
session of the grand lodge. A dozen
or more cities in various parts of the
country have offered sites for the
home.

Don't despair because you have a
weak constitution. The vitalizing
principle of HERBINE will assuredly
strengthen it. In every drop of
HERBINE there is life. There is a
stimulating, regenerating power, un-
equalled in the whole range of medi-
cal preparations. Price 50 cents.

SUING HALL CAINE.

ABRUPT TERMINATION OF
"ETERNAL CITY" AROUSES
THE ANGER OF THE
PUBLISHERS.

London, June 1.—If all the stories
are true, says the British Weekly, one
of the most sensational literary law-
suits has begun, and is going to be
fought out. The facts, so far as they
are understood, are that Messrs. Pear-
son, when beginning their new peri-
odical, the Lady's Magazine, purchas-
ed at a cost of \$10,000, the serial rights
of Hall Caine's story "Eternal City."
The story was not written at the time
of the purchase, but Mr. Caine un-
dertook to furnish it by installments.
At certain points Messrs. Pearson
found themselves unable to publish
the installments.
There were negotiations, but the
negotiations have been that, Messrs. Pearson
have taken the unprecedented course
of bringing the story to an end, and
have begun an action for damages
against Mr. Caine.
It is believed Mr. Caine intends to
defend the action, but it will prob-
ably not come on until the autumn.
Meantime his book is to be pub-
lished in August by Mr. Heinemann.

NOTICE TO OWNERS OF DOGS.
After Monday, June 3, all owners of
dogs on which the license shall have
been unpaid will be warranted before
the city court, and fines imposed upon
such according to ordinance together
with the enforced payment of the re-
quired license. This order will be vig-
orously prosecuted.

Poppe, Samuel Jackson, Henry Wal-
mer and J. J. Frennille meets at the
Rhodes-Hurford establishment to de-
termine on the nature of the enter-
tainment.

\$100 REWARD, \$100.

The readers of this paper will be
pleased to learn that there is at least
one dreadful disease that science has
been able to cure in all its stages and
that is catarrh. Hall's Catarrh Cure is
the only positive cure now known to
the medical fraternity. Catarrh being a
constitutional disease, requires a
constitutional treatment. Hall's Cat-
arrh Cure is taken internally, acting
directly upon the blood and mucous
surfaces of the system, thereby de-
stroying the foundation of the dis-
ease, and giving the patient strength
by building up the constitution and
assisting nature in doing its work.
The proprietors have so much faith in
its curative powers, that they offer
one hundred dollars for any case that
it fails to cure. Send for list of test-
imonials. Address,

COMPARISONS SHOW

Why you should insure in the Mutual
Benefit Life Insurance Company, of New-
ark, N. J.

Because:—"During the last 10 years, the Equitable for instance, has
paid \$25,896,292.58 in dividends to its policyholders, which largely
exceeds the AMOUNT paid in dividends by any other company
during the same period." (Equitable Record, Spring Number)
The Amount WAS larger, because the "premium receipts were
larger. The RATIO of dividends to premiums as compared to
other companies stands—

Company	Premiums Receipts	Dividends to Policyholders	Ratio of dividends to Premiums Per Cent
Mutual Benefit	82,458,547	16,632,856	20.47
Mutual Life of Ky	4,472,281	470,364	10.53

There have been several severe wrecks of coal boats at the Henderson bridge but none so totally destructive as the one that happened to the towboat Astor at Kenora, West Virginia, yesterday. The towboat Astor, with a fleet of coal from Pittsburgh to Cincinnati, struck the pier of the Norfolk and Western bridge at Kenora, W. Va., this morning, sinking the towboat and wrecking the bridge. The wreckage swept away the wharfboat, ferry pier and floats of timber. The accident occurred in a fog. There were no casualties.

Observations at Random

One of the attractive features of yesterday's morning lady from the county, who came into a shop. She was about six feet tall, weighed about 180 pounds, and was a picture of blooming ruddiness and only sweet sixteen. She fully confessed her age to an inquiring clerk, and he said bashfully: "Gee, Miss, I'd like to see what you look like when you are twenty."

The dog is quite a disturbance to the aqueduct of the license inspector. A lot of dogs have been issued, and there are about 5,000 dogs. The solution of the dog problem will probably not be solved. Everybody in Paducah seems to like dogs, from the mayor down to most everyone seems to have one or more, some principally for the fun.

A number of professional crooks in the county must be large, when they are serving terms in the penitentiary. The scores of daily operating crooks are a crowd, as taken to consideration. Memphis, which just recovered from the reunion, seems to have had the largest and most assorted variety, and in the rush of business a few have been captured.

Senior McAnnis, of South Carolina, has issued an address announcing his candidacy for the long non-presidential term. His address is quite salty, and among other things he says:

"The senior senator charges that I am a Republican and was organizing a Republican party here. If he believed his charge why did he consent to run with me in a Democratic primary? I denounce the charge as an infamous falsehood."

There will be anything like unity and quietude among our people until he is elected to private life. His friendly appeals to class hatred and prejudice, such as he made at Gaffney to foster operatives, and his dictatorial edicts and utterances will keep up divisions and discord in the state. The aim of the people I will make a heroic effort to break down, with its train of political evils and I invite all good citizens to assist me to inaugurate an era of free thought, free speech and independent action in South Carolina. The senior senator in the quinquennial of a farmer's life in Edgemoor county could be a blessing to the state."

The young man stood before the great steel magnate, says the Cleveland Plain Dealer. "A moment later he looked up."

"He stared at the rough clothing, the sudden shoes, and the unkempt hair of the youth."

"Well," he said, "the youth retained his presence of mind. He wanted a job because he needed it."

"Sir," he said, "I have come to see if I can get no further. A smile irradiated the magnate's face."

"That's all right," he said, "the job is yours. I was afraid at first that you might be one of those worthless college graduates."

And when the youth, the rascally-looking of his class and the pride of the university, again faced his mirror he winked expressively at his own reflection.

A drummer from the east evinced great surprise at Louisville the other day, according to one of the Louisville papers, at the chivalrous manner in which Kentuckians treat the ladies.

A young lady boarded a street car, and when the conductor called for her fare, opened her purse, and after looking carefully through it glanced up and in evident embarrassment and with a feeble attempt to smile, said: "Suppose I should tell you I haven't a cent."

A CLOSE CALL

Three daughters and a son of Mr. J. B. McAdams, of Louisville, etc. arrived yesterday afternoon and were later taken very ill. Dr. J. T. Haddick was called and administered a dose of medicine and they were well again.

TOBACCO ABOUT CLARKSVILLE.

Clarksville, June 1.—More or less damage to plant beds from cutworms and other insects is reported from different sections of the Clarksville tobacco district. It is believed that about half the tobacco crop has been lost in a majority of the counties, although in some only one-third or one-fourth has been lost. The crop is said to be much later than usual and the setting will not be more than an ordinary one. The quality of the crop depends on the seasons, from now on.

A VETERAN SUICIDES

Paris, June 1.—News is received here that J. Polk Oates of the twenty-fifth district of Henry county, a prominent farmer, took strychnine today with suicidal intent. At the time of the deed he was at home of his son, James Oates. Late reports say he is dead. He has been in Memphis in attendance on the U. C. V. reunion of which body he is a member. While there he was known to have been drinking heavily. No other cause is assigned for the deed.

CLAY BANK FOUND.

Mr. Hunter though has discovered that a valuable clay mine exists on his farm of one hundred acres three miles from the city on the Highland road. He sent specimens to an East Liverpool, O., concern and received word last evening that the clay is very valuable, and is offered a neat sum for each shipment, and has also been offered considerable for taking the clay, which seems to be so fine as to be used for china only, out for sale.

JOHN DIDN'T WAIT.

John Foley, a man of Marshall county, held at Smithland for cattle stealing, was taken out for trial yesterday, but there were no witnesses present and he was discharged. The jailer learned a few moments after the prisoner had been released that he was wanted in Marshall county and wanted to intercept him, seeing him leaving the court house yard. He called to Foley to stop, but the liberated felon increased his pace, and even four shots failed to halt him. He is now probably far out of reach. He is at least no longer in the Livingston county jail.

BEAUTY IS HEALTH.

I thank you for the benefit I received from your advice and the Wine of Cardui took. In my terrible condition my life was no pleasure to me at all and I was of no use to anybody. After receiving your advice and medicine I commenced taking it and began immediately to improve. The pains left me and the menues, which came at the correct time, continued three days. I have gained strength and my weight has increased. My husband says the medicine has made me better looking than ever before.

Womanly health means bright eyes, rosy cheeks, clear complexion and elasticity of form. This is the youth unmeasured by years—the beauty of perfect womanhood. Beautiful women are happier and get more out of life than their sisters whose faces indicate suffering. Wine of Cardui made Mrs. Mannell "better looking" and infinitely happier because it cured her of those terrible pains. But she is no exception.

WINE OF CARDUI

Is giving thousands of women health, beauty and freedom from the dragging pains which made their lives so miserable. Was faces, haggard eyes and emaciated forms are the results of suffering. What suffering can compare with the torture of irregular menstruation, leucorrhoea and falling of the womb? Beautiful women are happier and get more out of life than their sisters whose faces indicate suffering. Wine of Cardui made Mrs. Mannell "better looking" and infinitely happier because it cured her of those terrible pains. But she is no exception.
